Better Vision For Life

1

Give LASIK® Vision Correction This Christmas!

When you give a loved one LASIK®, what are they actually getting? They're getting a brand new, active lifestyle that can include jumping into a pool, riding a bicycle or skiing down a mountain with newfound freedom routinely reported by LASIK patients. It could be their chance to prepare for a trip without stopping to think, "Did I pack my contacts, cleaner, spare eye glasses, etc.?" It could very well be the reclaiming of the long-lost ability to open their eyes in the morning and actually see your face clearly before reaching for their glasses or contacts.

If there was ever a gift that keeps on giving, LASIK is it. Now, with a 15% discount until January 30th, 2015!

To make this Christmas special for someone you love, visit the Campbell Cunningham Laser Center on Weisgarber Road in Knoxville, or call and ask for Jaime or Anna. They'll be happy to walk you through the process, tell you exactly what to expect, and provide you with a certificate for the most appreciated gift you ever put under the tree.

For a free consultation and to find out if LASIK® is right for you, call 588-3937.

Gina Haas
Knoxville, TN

Local marketing representative, mom and former radio personality Gina Haas decided years of wearing glasses and contacts were enough. Gina had an extremely near-sighted vision condition and had worn glasses since kindergarten.

"When you live your life without being able to see clearly and then something gives you hope, you sure find out what it is," she explains. After her procedure at the Campbell Cunningham Laser Center, she reports vision of 20/20 in both eyes.

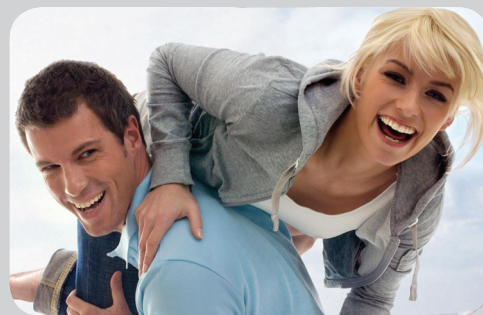

"I didn't know what that meant," she admits. "I'd never experienced it. Even with glasses and contacts, I didn't see 20/20. I had never seen anything without glasses or contacts. The feeling of fear when you wake up and cannot see was gone for me."

***Better Vision For Life** is a publication geared toward those interested in LASIK® Vision Correction at the Campbell Cunningham Laser Center. Here, we share stories of patients describing their experience before, during and after this life-changing procedure. Information about new technology, insurance discounts and financing in order to help LASIK be part of your life is included as well. We hope you enjoy reading our publication and please feel free to contact us if you have any questions.*
